

**Open Lap/Circle Swim:**

From 6:00 a.m.-9:00 a.m., September-June, lanes 1-3 (the three lanes closest to the bay of windows) will be designated for Open Lap, aka “circle swimming.” During this time, these lanes are first come, first served and have no time limits for swimming duration. You may arrive and enter the pool any time after 6:00 a.m. and swim for as long as you would like until 9:00 a.m. when they return to reservation only. The lanes will, however, be limited to four swimmers per lane, so if four swimmers are in each of the three lanes when you arrive, you are expected to wait until a lane becomes available.

Open Lap is recommended for more experienced swimmers whose workouts are limited by the 50-minute limit of reservation lanes.

During July and August, please reference the virtual pool calendar for Open Lap availability as our schedule varies during summer months.

**Reservation-Only Lap Swim Lanes**

All Lap Swim times will offer reservation-only lanes with a limit of two swimmers. Reservations can be made through our SignUp online system (link [here](#)).

Reservations begin on the top of each hour and end at the :50 (ex: 8:00 a.m.-8:50 a.m.). You are required to exit the pool at the :50 unless clear communication with the lifeguard is established and an exception is possible. If you wish to swim longer than 50 minutes, it is recommended to swim for your 50-minute reservation, then move over to an Open Lap lane. If you have medical or physical restrictions that require extra time to enter and exit the pool, or would like to know options for extended-time reservations, please contact the Aquatics Director or lifeguard on duty..

These lanes are recommended for slower swimmers, less experienced swimmers, leisurely swimmers and aquacisers/aquarobics.
